

Table ronde / *Round table*

Territoires en Transition

La longue durée des relations peuplement-environnement en milieu côtier
et insulaire de la Méditerranée septentrionale
(de la Préhistoire au Moyen âge)

Territories in Transition

The long duration of settlement-environment relations in the coastal and
insular environment of the northern Mediterranean
(from prehistory to the Middle Ages)

PROGRAMME

22 - 24 septembre 2021

Besançon, Salle de conférence de la MSHE Ledoux
Esplanade Germaine Tillion, 1 rue Charles Nodier

MERCREDI 22 SEPTEMBRE

WEDNESDAY 22 SEPTEMBER

14h

Accueil des participants / Welcome of the participants

14h30

Mot de bienvenue et introduction à la Table Ronde par l'équipe du programme IATEKA (ISITE-UBFC) / *Welcome speech and introduction to the Round Table by the organisers (program IATEKA of ISITE-UBFC)*

SESSION 1

Archéologie du peuplement / Human settlement and impact

Sonja KAČAR

(University College Dublin, Ireland and TRACES UMR 5608 University of Toulouse)

Hunter-fisher-gatherers in transitions: Human-environment interactions in the eastern Adriatic during the Early Holocene

Michael DONEUS, Nives DONEUS

(University of Vienna and Ludwig Boltzmann Institute, Austria)

From site to landscape – archaeological prospection of the Cres/Lošinj archipelago
(*Visioconférence / Videoconference*)

Martina BLEČIĆ KAVUR

(University of Primorska, Slovenia)

Big building blocks of Iron Age Osor
(*Visioconférence / Videoconference*)

Pause-café / Coffee break

Mia RIZNER

(Conservation office of Rijeka, Ministry of Culture, Croatia)

Evolution of the historic landscape of Quarner bay islands, diachronic and retrogressive approach

Alessandra MOLINARI

(University Roma 3 – Tor Vergata, Italy)

Changing human settlement and land use in medieval Sicily (6th to 14th c.)

Diego CALAON

(University Ca' Foscari, Venice, Italy)

A Subversive settlement? Venice and the lagoon, 6th- 9th century

JEUDI 23 SEPTEMBRE

THURSDAY 23 SEPTEMBER

9h

Accueil des participants / Arrival of the participants

9h15

SESSION 2

Archéologie des ressources économiques et de la subsistance / *Archaeology of economic resources and livelihoods*

2a. L'étude des conditions de vie à travers les recherches bio-archéologiques / *Evidence of life conditions through bio-archaeological research*

Daniel FERNANDES

(Department of Evolutionary Anthropology, University of Vienna, Austria)

The Western Mediterranean islands: Crossroads of different ancestries since the Chalcolithic
(*Visioconférence / Videoconference*)

Morana ČAUŠEVIĆ-BULLY, Sébastien BULLY

(University of Bourgogne Franche-Comté - UMR Chrono-environnement; CNRS, UMR ARTEHIS -
University of Bourgogne, France)

Studying the island settlement dynamics of the northeastern Adriatic islands through
ecclesiastical sites: case studies of Mirine-*Fulfinum* and Martinšćica

Mario NOVAK

(Institute for Anthropological Research, Zagreb, Croatia)

Mirine-*Fulfinum*: North Adriatic island population between Antiquity and the Early Middle Ages

Pause-café / Coffee break

Anaïs DELLISTE

(Associate researcher at UMR ARTEHIS, CNRS)

Analyse archéo-anthropologique comparative de deux secteurs funéraires du Monastère de
Saint-Pierre d'Osor

Mario CARIĆ

(Institute for Anthropological Research, Zagreb, Croatia)

A Look at Insular Diet: Stable Isotope Analysis from the sites of Mirine-*Fulfinum* and Martinšćica

Cyprien MUREAU

(CNRS, UMR ISEM, Montpellier, France)

Eléments d'appréhension de l'exploitation animale entre Antiquité tardive et Moyen Âge dans
l'archipel du Kvarner à partir des exemples de Mirine-*Fulfinum* et Martinšćica

Pause déjeuner / Lunch break

2b. Archéologie des ressources économiques / *Archaeology of economic resources and livelihoods*

Enrico CIRELLI

(*Alma Mater Studiorum*, University of Bologna, Italy)

Economic resources and livelihoods at Ravenna in the Middle Ages
(*Visioconférence / Videoconference*)

Ana KONESTRA, Goranka LIPOVAC-VRKLJAN, Fabian WELC

(Institute for Archaeology, Zagreb, Croatia ; Cardinal Stefan Wyszyński University)

in Warsaw From pottery production to productive landscapes: a glimpse into the rural economy
of ancient Liburnia (eastern Adriatic, Croatia)
(*Visioconférence / Videoconference*)

Pause-café / Coffee break

Corinne ROUSSE, Christophe VASCHALDE, Nicolas GARNIER

(University Aix-Marseille - UMR CCJ ; Mosaïques archéologie ; LNG, Associated researcher at UMR AOROC
CNRS - ENS, Paris)

Exploitation et gestion des ressources à l'échelle d'une grande propriété impériale : Loron / Santa Marina en Istrie (Croatie)

Christophe VASCHALDE

(Mosaïques archéologie)

avec la coll. de C. Cenzon-Salvayre, L. Chabal, J. Chardonneau-Henneuse, L. Fabre, I. Figueiral, M. Toriti

Populations littorales et exploitation du bois et des arbres en Languedoc et Provence (IV^e-VII^e s.) au travers de l'antracologie. Bilan et perspectives

VENDREDI 24 SEPTEMBRE

VENDREDI 24 SEPTEMBER

SESSION 3

Paysages naturels et anthropiques / *Natural and anthropic landscapes*

9h15

Charly MASSA

(Associated researcher at UMR Chrono-environnement – CNRS)

A lake record of Holocene climate and environmental change on the island of Cres, northeastern Adriatic

Marine ROUSSEAU

(University of Bourgogne Franche-Comté, UMR Chrono-environnement)

Late Iron Age to early Medieval cultural transitions and land use changes on the Island of Cres (northeastern Adriatic)

David KANIEWSKI, Nick MARRINER, Christophe MORHANGE

(University Toulouse 3 – UMR TRACES ; CNRS, UMR THEMA – University Bourgogne Franche-Comté ; University Aix-Marseille - CEREGE)

5200 years of climate, storms and coastal submersions in Istria, coastal Croatia

(Visioconférence / Videoconference)

Pause-café / Coffee break

Odile PEYRON

(CNRS, UMR ISEM, University of Montpellier)

en collaboration avec Marion BLACHE, Mary ROBLES, Sébastien JOANNIN, Elisabetta BRUGIAPAGLIA, Guillemette MÉNOT, Lucas DUGERDIL, Anna Maria MERCURI ASSUNTA FLORENZANO, Angèle JEANTY

Contrasted climate patterns during the Late Glacial and Holocene in Italy reconstructed from pollen data

(Visioconférence / Videoconference)

Jean-Philippe GOIRAN

(UMR Archéorient, MOM Lyon)

Les ports perdus de la civilisation étrusque

Isabelle JOUFFROY-BAPICOT, Marion LESTIENNE, Boris VANNIÈRE

(CNRS UMR Chrono-environnement – University Bourgogne Franche-Comté)

Fires and human activities as key factors in the changes and high diversity of Corsican vegetation

Conclusions par Emilie Gauthier
